SHIPMENT INSURANCE

The maximum insurance limit for the items being traded is set at €100.00 per item or shipment. In particular, the upper limit of compensation for damage, loss and theft of the items is determined: For envelopes at €50.00. For parcels at €100.00.

VOLUMETRIC WEIGHT CHARGE

All FPC shipments are volume metered. The volumetric weight is calculated in kilograms if we multiply the 3 dimensions of the package (measured in centimeters) and divide by 5,000. That is, the relationship applies: (Volume Weight in Kilos) = (Length in centimeters) * (Height in centimeters) * (Width in centimeters) / 5,000. In any case, the higher actual or volumetric weight is invoiced.

Returns (non-delivered) and imports are carried out by sea only.

Returns (non-delivered) are charged at the cost of shipping.

Shipments are bearing the expense of 24% VAT
